

Are You Missing the Revolution?

- NEVER do a Coomassie stained SDS-PAGE
- NEVER do an analytical agarose gel
- NEVER stand in queue for a simple flow cytometer analysis

- The BIOANALYZER could do all this for you!

- DO proteomics without 2-D gel electrophoresis
- DO proteome analysis without biases (against membrane proteins, alkaline proteins or low abundant proteins)

- The AGILENT nano-LC/MS is the solution!

Proteins and Proteomics Seminar

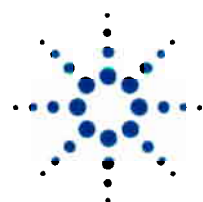

March 10th at 13.00

Lundbergslaboratoriet, Medicinaregatan 9C, Plan 2 (östra vingen), Konferensrum 2303

13.00-13.15	Welcome and Introduction	Lena Heffler, Sales Specialist
13.15-13.45	Proteomics today and tomorrow	Rudi Grimm, Global Proteomics manager
13.45-14.15	The Lab on a chip concept	Michel Schmidt, Proteomics expert
14.15-14.45	The Agilent product portfolio	Lena Heffler, Sales Specialist

Coffee will be served!
